Problem Statement

- Students are finding it **harder to manage and cope** with the increased workload of projects and assignments given to them

- With mental health issues arising from school-related workload, there is a need to find a way to not only **ensure productivity but also prioritise student wellbeing**

Solution

An All-In-One Gamified Solution that targets task management and mental health in an fun and engaging way!

Tasks

View all your tasks and keep track of progress in a comprehensive overview!
